

“Growing and Seasons”

An immersive, student-led journey into nature, designed to spark curiosity, build confidence, and meet curriculum goals.

Creating & Making

Hands-on art, design, and construction using natural materials. Developing creativity, planning, and practical skills.

Talking & Working Together

Discussion, imagination, and teamwork through shared activities. Building language, communication skills, and the ability to listen and respond.

Exploring the Natural World

Outdoor exploration of weather, seasons, plants, and habitats. Supporting observation, early scientific thinking, measuring, and active physical learning.

Brief Outline of Your Day

10.00

Arrival & Safety

Introductions, toilets, and safety briefing.

10:30

Guided Walk before starting activities

Evergreen and Deciduous, bark, texture, leaves, Identification, weather habitats Listening

12:00

Forest Lunch

Picnic style at the Forest School Sites

12:45

Continue with Activities

Continuing activities and exploration.

13.45

Reflection

Gathering circle to share adventures and tidy up

14:30

Departure

Coach departs with tired, happy students.

The activities shown are examples and may vary.

Session timings are flexible and tailored to the needs of each group

Curriculum Activities

Our activities are flexible and responsive to children’s interests, supporting a holistic approach to learning through seasonal change, plants, and the natural environment

Mud Kitchen

Mixing, pouring, and imaginative play with natural materials. Supporting creativity, early mathematical language, and cooperative play

Guided Woodland Walk

Exploring trees and habitats through guided observation. Learning about deciduous and evergreen trees, seasons, textures, and shapes in the natural environment.

Cooking on the Fire and Fire Steels

Independently using a fire steel to light a cotton wool and toast bread on a fire, with supervision. Exploring heat, safety, and change of state through real outdoor experience

Natural Art

Using natural materials to create art. Encouraging creativity while learning about plants, colours, and seasonal change

Mini Beast Hunting

Looking closely at insects and the places they live. Learning about living things and how to care for the natural world

Den Building

Working together to build simple shelters using natural materials. Developing teamwork, problem-solving, and confidence outdoors

These programmes are flexible and can be adapted to support a range of curriculum themes, including spring, growing, habitats, and weather, to suit the needs of each school and class — just tell us what you’re looking for

Teacher Peace of Mind

- Hygiene: Hand washing facilities provided on site.
- Qualified Leads: Experienced Forest School leaders guide the session.
- All Weather: Shelter available
- Activity Risk Assessment Provided
